

Jeremy King, Nominee for Consortium Secretary

Hi, my name is Jeremy King. I'm currently holding two LTE positions for the Wisconsin Department of Natural Resources (WDNR) as a Water Quality Specialist Manager for the Upper Mississippi River where I help with field monitoring, data collection, data management, data analysis, reporting, lab work, and everything in between. I'm based out of La Crosse, WI (State Office Building) and French Island, WI (Upper Midwest Environmental Resource Science Center). I was born and raised in Appleton, WI. I graduated from Fox Valley Technical College in 2015 with an associate degree in natural resource science and in 2019 graduated from University of Wisconsin-Stevens Point with a bachelor's degree in water resource science. Upon graduation I started with the WDNR where I have been working together with multiple state and federal agencies with one main goal: preserve, conserve, and rehabilitate the Mississippi River. In my free time you can find me running on a local trail, fishing, hiking, camping, snowboarding, and basically anything outdoors.
