

Kathi Jo Jankowski, Nominee for Consortium Vice President

Kathi Jo Jankowski is the Principal Investigator for the Water Quality Component of the Upper Mississippi River Restoration Program's Long-term Resource Monitoring Element. She coordinates water quality monitoring and research on the Upper Mississippi in coordination with several federal and state agencies. Her research aims to understand how land use and climate change impact ecosystem. She earned her Bachelor's degree from University of Notre Dame (environmental sciences and anthropology double major), her Master's degree from Loyola University Chicago (Biology), and her PhD from University of Washington (Aquatic and Fisheries Sciences). She did her postdoc at the Marine Biological Lab in Woods Hole, MA.
